About Natural Sound

Natural Sound Recording Studio is a 24-track, all-digital recording facility conveniently located in St. Paul. We offer state-of-the-art equipment and 20+ years of experience to insure you receive the highest quality recording.

Do you know someone

Do you know some one who sings? Do you know a Karaoke star? Have you ever wanted to sing somewhere besides the shower?

Now you can!

612-670-9348

The Details:

Natural Sound Studio is a professional recording facility but that doesn't mean we have to be a stuffy studio.

Music is supposed to be fun and adventurous. We are open to new experiences and for those wanting a unique and new experience.

If you know a musician, vocalist, talented reader, story teller or shower singer, a couple hours in a recording studio is a very unique gift.

Give that special someone a special gift. Give them a chance to unleash the creative force inside of them.

It is a lot less money than you think. Our equipment is high quality. Our studio is relaxed and fun.

Check it out.

What will happen during a session?

Arrive at the studio with your prerecorded music. Meet the staff and begin your session. It is fun, easy and we will guide you through every step.

When you are done

We will mix your project and make a master CD. We can design a cover with your artwork or use our own design. We can manufacture as many CDs as you want (large orders may take a couple weeks).

You take the CD home and play it. When friends ask who the star is, tell them it is you.
