## About Natural Sound

Natural Sound Recording Studio is a 24-track, all-digital recording facility conveniently located in St. Paul. We offer state-of-the-art equipment and 20+ years of experience to insure you receive the highest quality recording.

## Do you know someone

Do you know some one who sings? Do you know a Karaoke star? Have you ever wanted to sing somewhere besides the shower?

**Now you can!**

**612-670-9348**

## The Details:

Natural Sound Studio is a professional recording facility but that doesn't mean we have to be a stuffy studio.

Music is supposed to be fun and adventurous. We are open to new experiences and for those wanting a unique and new experience.

If you know a musician, vocalist, talented reader, story teller or shower singer, a couple hours in a recording studio is a very unique gift.

Give that special someone a special gift. Give them a chance to unleash the creative force inside of them.

It is a lot less money than you think. Our equipment is high quality. Our studio is relaxed and fun.

Check it out.

## What will happen during a session?

Arrive at the studio with your prerecorded music. Meet the staff and begin your session. It is fun, easy and we will guide you through every step.

## When you are done

We will mix your project and make a master CD. We can design a cover with your artwork or use our own design. We can manufacture as many CDs as you want (large orders may take a couple weeks).

You take the CD home and play it. When friends ask who the star is, tell them it is you.
