

Other Options:

Natural Sound strives to be flexible to your school's needs, so we also offer you the option to **pre-record** your concert and have the recordings **available for sale** the day of the event. This option allows you to do multiple takes of songs to get the best possible recording of your groups. Please call your helpful Natural Sound Representative for details of this option.

Added Benefits

- A CD of your event provides music students with a high-quality recording of their own concert, an invaluable tool for improving their skills.
- A recording makes a wonderful gift for the students' families and a great memento for the future.
- Recording allows music directors to start an archive of school performances, and have excellent examples of their performance groups available for submission to competitive events.

About Natural Sound

Natural Sound Recording Studio is a 24-track, all-digital recording facility conveniently located in St. Paul. We offer state-of-the-art equipment and 20+ years of experience to insure you receive the highest quality recording.

The Package

Natural Sound has created a special recording package designed specifically to meet the needs of school music programs that want new, reliable, no cost fund raising opportunities.

Natural Sound is offering free location recording services to any school music group. This includes:

- elementary, middle or high school
- band, orchestra or jazz band
- choir, swing choir or chorale
- any other musical performance group

612-670-9348

The Details:

Two weeks prior to your concert (or any time frame of your choosing), Natural Sound will provide your students with customized sales documents. Your students are asked to sell 3 copies of the concert recording, or as many as they can, to their family and friends at \$10 each. **There is no cold calling or door to door selling required.** Additionally, Natural Sound will maintain a sales table at your performance for those people who would prefer to purchase CDs at the event.

Using our mobile recording equipment, Natural Sound will multi-track record your school's music performance using the highest quality digital equipment.

After your event, Natural Sound will tally up the total number of recordings sold and provide a price split with your school based on the following table:

# of Units Sold	\$ Earned per Unit	Total School Earnings
<75	\$0	\$0
75 – 99	\$1	\$75-\$99
100-149	\$2	\$200-\$298
150-199	\$3	\$450-\$597
200-249	\$4	\$800-\$996
250>	\$5	minimum \$1250

The Finished Product:

Two weeks after your performance, Natural Sound will deliver the finished recordings, a comprehensive distribution list and a check for your school's portion of the proceeds. Natural Sound CDs include a full-sized jewel case with a single page front insert. We can include any artwork you desire. You can determine all text for the label. Or, if you prefer, let Natural Sound design the cover and CD label for you for no extra charge.

What's The Catch?

There is no catch. Because we are small and local, we have very little overhead. This allows us to offer recording services to your school for no additional cost. It's a win-win situation for your school: great fund raising potential with absolutely no risk involved.
